Earl,

I think it would be me, Stacey Groce, and David Lieu. I've cc'd them in case they think there is anyone else.

I'll note that we are working towards authorizing the exemption about which they are FOIAing about and are expecting to put all of our final documents in the docket. I think this will be authorized sometime next week, so hopefully the requests will slow down after that.

Eric,

I hate to keep asking you about all these Section 18 requests. Can you provide the names of the staff that would have email records that we can use in the e-discovery search. Also if anyone has any meeting notes of any meetings, could you provide those.

The Center is requesting from the U.S. Environmental Protection Agency ("EPA"), Office of Pesticide Programs ("OPP") from May 20, 2022 to the date EPA conducts this search:

- 1. The records of communications of EPA OPP or any higher-up program or office that include the email extension "@fdacs.gov"2 generated in connection to FDACS' Recertification Request for Belay Insecticide for the 2022 Use Season (Dec. 3, 2021), EPA Docket #EPA-HQ-OPP-2021-0952-0003; and***
- 2. The notes generated in connection to meetings or phone calls about the abovementioned subject matter in Item #1.***
